- Please add two interactive services to our website.
- Add more visuals and colors to the website.
- The website is very plain and not interactive at all
- Change the colors to more interactive colors that match the logo like the color palette shown.
- Add visuals and pictures of tourism.
- On the Services (Hospitals section): when we click on a hospital, it should show the best route to take.
- Change the traffic status behavior:
  - When we press on a road,
  - The status below should change dynamically,
  - Instead of having the three states fixed at the bottom.
- Remember the objectives in form B – it's the most important thing.
- All of the objectives should be included in the website.
